

Transportation

Transportation Worksheet – Setting Goals

Vision:

Greening Targets	Baseline	Goals		
		Short-Term (0-1 year)	Mid-Term (1-5 years)	Long-Term (5 years +)
Modes	Fleet inventory (how many vehicles are in the fleet, what type)? What is the fleet average fuel economy? What is the fuel economy of different types of vehicles? How do visitors get around in the park is there a visitor transit system?			
Pathways	How many miles of roads, bike trails, walking trails, waterways are there in the park? What surface materials are used? What are current and projected use patterns and congestion issues (based on visitation)? What are current and projected parking needs and existing lots?			
Fuels	What % (how many) vehicles in fleet are electric, propane, hybrid? Does the park have fueling stations for alternative fuels? What % of fuel used is biodiesel? What type?			
Cross-Cutting Goals				
Education / Interpretation	Are there any existing programs, exhibits, materials on transportation issues and alternatives?			
Training Needs	Do staff need training or more information resources on transportation issues and strategies?			
Procurement	What are barriers to procuring greener vehicles, fuels, etc.?			

***NOTE – O&M OF VEHICLES AND ROADS IS COVERED UNDER O&M.**
